## CHECK STRAP KIT

Thank you for purchasing this Pro's Pick product. This strap kit is fabricated from nylon and stainless steel. It should give you many years of trouble free service.

### KIT CONTENTS

- 2 straps
- 4 1/4" nutserts
- 4 1/4"x 3/4" stainless button head bolts

### REQUIRED TOOLS

drill  
25/64" drill bit  
nutsert tool  
allen keys  
blue or red loctite

This particular kit is universal in nature so you will have to determine the attachment points and whether or not you will need to fabricate tabs for attachment. When determining attachment points bear in mind that the straps will stretch about 3/16" with the weight of the gate. If you ever need to shorten the straps an upholsterer can do it easily.

The attachment bolts must be left loose enough for the buckles to swivel freely. Use blue loctite to keep these bolts from loosening.

We hope this has been a pleasurable experience for you. If you have any problems or questions please don't hesitate to contact us. Also if you have any comments or suggestions for other products or ways we can improve our existing products please call us at 519 843 9906.

Thanks
